Our oceans are home to the greatest diversity of life on Earth, and yet we have better maps of Mars than of the ocean floor. With so much more to discover, find all of these sea creatures in this word search:

- Atlantic Puffin
- Barreleye Fish
- Bobbit Worm
- Bottlenose Dolphin
- Cockeyed Squid
- Coral Grouper
- Emperor Penguins
- Flapjack Octopus
- Fur Seal
- Garibaldi
- Green Turtles
- Jellyfish
- Lionfish
- Polar Bears
- Pyjama Shark
- Rock Lobster
- Sea Cucumber
- Sea Otters
- Sea Stars
- Sea Toad
- Spider Crabs
- Swordfish
- Tiger Shark
- Walrus

BLUE PLANET II

DRAW YOUR OWN SEA CREATURE

Draw the most ingenious and unusual sea creature and describe its key abilities and features.

KEY ABILITIES AND FEATURES

BLUE PLANET II

YOUR BLUE PLANET

Why not cut out this checklist and stick it to the fridge using a magnet!

There are simple things that we can all do, every day, to help protect our Blue Planet. Here are some ideas to help make your home an eco-friendlier one:

REDUCE YOUR ENERGY USAGE

Next time you feel chilly, try layering up rather than turning up the heating. Switch off lights when you're not in a room, and unplug electronics when you're not using them.

These actions will use less energy, so there'll be less carbon dioxide (CO₂) in the air that makes Earth warmer.

SAY NO TO SINGLE-USE PLASTIC

Rubbish that's left on the ground can wash into drains, flush into the sea and be eaten by wildlife. Plastic can take hundreds of years to break down so that's why countries are beginning to ban single-use plastics such as carrier bags.

CONSIDER ECO-FRIENDLY PRODUCTS

Using eco-friendly products means we will have less toxins in our air and less chemicals going into the water. You can get eco-friendly products for a variety of things such as cleaning surfaces, floors, and furniture. Also consider using eco-friendly shampoos and conditioners too.

REDUCE, REUSE AND RECYCLE

Try reducing the amount of plastic you use by carrying a reusable water bottle, reusable bags and saying no to plastic straws. Rather than throwing things away, we can share with others, so that old toys and clothes can become new again.

Those things that can't be reduced or reused can be carefully recycled. This keeps them out of landfill so they can be born again: cardboard boxes can become paper, fruit and vegetable peelings can be composted into soil.

CHECKLIST

Tick off each idea:

- Turn the lights off
- Unplug electronics when not in use
- Turn down/off the heating
- Use reusable bags or canvas bags
- Use eco-friendly shampoo
- Recycle 
- Share toys/clothes you no longer want

--- Always get an adult to help when using scissors.
