

# Marvellous MICE

The hero of *The Witches* doesn't let being turned into a mouse stop him from saving the day! Make your very own paper mouse and take care not to be caught by tricky witches...

DECORATE THE MICE BY DRAWING EYES AND PAINTING NOSE, EARS AND TAIL!

## THE METHOD:

**Step 1:** Cut out all pieces of your mouse. Be careful to only cut along solid – the dashed lines show you where to fold later.

**Step 2:** Decorate your mouse's body, tail and ears.

**Step 3:** Apply a small line of glue where indicated and roll your mouse into a small cone shape.

**Step 4:** Fold ears along the dashed line, add glue to the pointed tip and stick onto the body of your mouse, making sure the folded bit is hidden.

## YOU WILL NEED:

- A copy of the template
- Colouring pencils
- Scissors
- Glue
- Coloured pens or paint to decorate
- Mini pom-poms or pipe cleaner (optional)

**Step 5:** Attach the tail. Make sure to stick this inside the top of the cone. Set off to stop the Witches with your paper mouse and if you see a woman with a mouse on each finger – watch out! They might just be a witch...

**TOP TIP!** You could also use small pom-poms for the ears or a pipe cleaner for the tail if you want to add some fun texture.
