

EMPATHY MISSION

Creating Quiet Spaces

Design a quiet space inspired by *Super Uma*, written by Rashmi Sirdeshpande and illustrated by Nakul P.

The City of Sparkleopolis is full of colour, sparkle and music, but some characters find this TOO MUCH! Super Uma goes on a mission to create a quiet space to allow more people to enjoy the city, in their own way.

Your Empathy Mission

Create a quiet space to be used when someone needs to take a break. Use the chart to think about what the space will look, sound, smell and feel like then sketch your design. Afterwards share your ideas with the class and talk about how we can care for each other's needs in our shared spaces.

Sensory Chart

Write, sketch or ask a helper to scribe your ideas below.

Sketch your quiet space.
